

WORKSHOP PRESENTER

Mathew E. Wampole

Manager Solution Scientists

Clarivate Analytics

Dr. Matthew Wampole received his PhD in chemistry from Bryn Mawr College. He then worked at Thomas Jefferson University as postdoctoral research fellow to develop tumor specific imaging probes for cancer patients with KRAS mutations. He has since joined Clarivate Analytics and is currently the Manager of the Solution Scientist team. This group works closely with scientists in the discovery, pre-clinical, and translational biomedical research fields seeking to develop new therapies.
